RECO Teams with McCutcheon
Construction and HDR Construction to
Win 2 REMMIE Awards!

**Berkeley's HDR Construction and RECO won a REMMIE for this
Oakland remodel**

Hello {FIRST_NAME|Valued Customer}:

RECO has been a member of the National Association of

Remodelers (NARI) for many years, and this year we helped sponsor the annual awards program.

We're also proud to have teamed with longtime trade partners, HDR Construction and McCutcheon Construction, on the two REMMIE award-winning projects we're showcasing below.

HDR Construction and RECO Transform Oakland Home

Today's casual lifestyles mean that architects and homeowners are getting more creative, coming up with new ways transform living spaces.

We rewired the new space, adding recessed LED lighting

In this renovation, the open concept and more casual dining experience were achieved by swapping the large dining room and the smaller kitchen.

Dramatic Kichler pendant lights hang over the island and dining room table

The smaller dining space provides a casual dining experience and the functionality of a formal dining room for family gatherings.

Additional fun fact: The dramatic Kichler pendants over the island and dining table have become some of the top-trending lighting fixtures sold on Build.com.

McCutcheon Construction and Roberts Electric Restore Oakland Craftsman

McCutcheon Construction was the General Contractor on this project that won a REMMIE for the Regional and National Contractor of the Year Award in the Kitchens over \$150K category. Look for this home in the Rockridge Kitchen Tour on September 24.

RECO installed uplights and undercounter strips that help save energy

The owners of this 100-year-old craftsman wanted not just a new dream kitchen, but one that restored the home's original character.

RECO worked closely with the contractor and architect to open up this living space, which included raising the ceiling

The new design opened up the living area by removing dividing walls and raising the ceiling. RECO installed high-efficacy LED recessed lights, up lights and undercounter

strips that help save energy.

White counters and cabinets become a backdrop for the exposed brickwork and blue china cabinet

We adapted the existing circuiting and distribution as needed, including arc fault safety breakers and installed soft-glow, energy-efficient LED steplights on the deck, with complementary sconces and added security lighting.

About Roberts Electric

We've been family owned for more than 80 years; we're proud of our strong community ties and the relationships we've built.

**As the City has evolved,
so has Roberts**

We like that people recognize the RECO brand--our trucks as we drive through the City's

neighborhoods. We're proud to have played a role in Oakland's historic development and excited to be part of the vibrant city that Oakland is today. We're a company that's transcended the old and embraced the new.

Our own little neighborhood is exploding with growth. We feel the energy and spirit, along with an emerging attitude that if we all work together we can get it done. We're solving problems every single day, finding new and better ways to work with our partners, our clients and our City. This has always been a fundamental principle at RECO, and it's key to our continued success.
